

CAR PARKS TEAM

Five million passengers travel through East Midlands Airport every year. Their flight is generally only one part of a longer journey; they have to travel to and from the airport too.

A great bus service is available to and from East Midlands Airport, but many passengers choose to travel by car. This means that the Car Parking

operation on site is a large part of the airport's business.

The airport employs their own staff for car parks. They work in a variety of roles including Managers and Passenger Service Assistant roles. The Car Parks team maintains the car parks, parks cars for the Meet and Greet service and takes payments for car parking.

This is a great entry level job. Many members of staff at East Midlands Airport started their careers working in car parks, in part time or temporary roles and rapidly progressed. It's a great place to develop your confidence and customer service skills.

Car parks at East Midlands Airport

This is a 24/7, 365 days a year operation. Staff work shifts and can often find themselves starting work in the early hours of the morning.

TO WORK IN THE CAR PARKS TEAM

You'll be

You'll enjoy working with people, be highly professional, well-presented, and hold a full clean driver's licence. You'll be able to manage peaks and troughs as many passengers arrive and depart at the same time. You'll be diplomatic, calm and polite at all times.
