

Dear Parent/Carer,

Last week, we launched our GCSE transition activity booklet with our Year 9 students so that students can complete some introductory work over the summer, ready for their GCSE courses in August. The activities are based around our school's Core 4 Strategies for studying and revising so that students can prepare for their courses effectively. More details of these strategies can be found in the booklet and on our website.

We welcome your support in encouraging your child to complete these activities (for their core subjects and allocated options choices) and to bring back to school at the start of Y10.

Students have been given paper copies of this booklet, but this is also available on our school website on this page:

<https://www.ashbyschool.org.uk/wp-content/uploads/sites/14/2026/06/Transition-Activity-Booklet-Summer-2026.pdf>

Please note, the printed version for your child had Design incorrectly labelled as Computer Science. This has now been corrected and the electronic version available on the school website should be referred to for Design.

Kind regards,

Miss F McCafferty

Assistant Headteacher
